PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 3.5+ years of experience building scalable, high-performance web applications for enterprise clients. Skilled in React.js, Node.js, Express.js, MongoDB, TypeScript, REST API design, real-time WebSocket systems, IoT platform integrations, and AWS cloud deployments. Delivered 3 production-grade systems end-to-end in Agile/Scrum environments. Seeking high-growth product-based or startup engineering roles across India.

TECHNICAL SKILLS

Frontend	React.js (v19), Next.js, TypeScript, JavaScript (ES6+), Redux / Redux Toolkit, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST API Design, WebSockets, JWT Authentication, Role-Based Access Control (RBAC)
Database	MongoDB, Mongoose ODM, MySQL
Cloud & DevOps	AWS (S3, EC2), Docker, Git, GitHub, Nginx, CI/CD basics
Tools & Methods	Postman, VS Code, Agile / Scrum, npm, Linux CLI

WORK EXPERIENCE

Software Engineer — MERN Stack

Feb 2023 – Apr 2026

Regami Solutions · Chennai, India · Full-Time · 3 Years 4 Months

- Designed and delivered scalable MERN stack web applications for enterprise clients across IoT, healthcare, and media domains.
- Built an OTA (Over-The-Air) firmware update system for IoT devices with rollback support, cutting manual deployment effort by ~70%.
- Developed a Video Management Portal using AWS S3 for secure media upload, storage, and role-based content organisation.
- Engineered a Senior Care Management System with real-time IoT sensor monitoring, automated health alerts, and multi-timezone support.
- Implemented JWT authentication and RBAC across multiple projects; integrated WebSockets for live IoT dashboard data feeds.
- Optimised React component rendering and Node.js API response times, improving overall application performance.
- Participated in Agile/Scrum ceremonies — sprint planning, stand-ups, code reviews, and production deployments.

KEY PROJECTS

OTA Update System for IoT Devices

React.js · Node.js · Express.js · MongoDB · AWS · Docker

Jan 2024 – Jan 2025 | Regami Solutions

- Built a secure cloud platform to push OTA firmware updates to IoT devices with instant rollback on failure, eliminating manual on-site updates.
- Reduced firmware deployment effort by ~70% and near-eliminated device downtime risk through automated version management.

Video Management Portal

React.js · Node.js · Express.js · MongoDB · AWS S3

Jan 2024 – Dec 2024 | Regami Solutions

- Developed a full-featured portal for secure video upload, cloud storage, and content management using AWS S3.
- Implemented role-based access control, JWT auth, and scalable media organisation features for enterprise clients.

Senior Care Management System

React.js · Node.js · MongoDB · IoT Sensors · WebSockets

Jan 2024 – Jan 2025 | Regami Solutions

- Real-time health and safety monitoring system for senior citizens using IoT sensors with automated alert triggers.
- Integrated WebSockets for live data feed and built multi-timezone support for caregivers across different regions.

EDUCATION & CERTIFICATIONS

B.Tech — Computer Science & Engineering

Dronacharya Govt. College, Gurgaon · 2018 – 2022

Class XII — CBSE · 2018

- Full Stack Web Developer – MEAN Stack | Simplilearn, Jan 2022
- JavaScript – Complete Guide (Beginner + Advanced) | Udemy, Aug 2022
- React.js Training | Simplilearn
- Node.js Training | Simplilearn
